

NURTURE *Academy*
SCOTLAND

We believe in investing
time for bright futures.
Removing barriers.
Inspiring.
Believing.

Welcome

Welcome to Nurture Academy Scotland. Our founders Michelle and Audrey are experienced hairstylists and assessors working in the industry for over 25 years.

They have achieved TCI training and Trauma training to understand, support and be proactive around presenting behaviours that may occur and to really connect with the young people who are referred to the Academy.

Developing learners' employability skills is a key driver for candidates that want to prepare their skills for the 21st century workplace. In this workshop, they will explore ways in which learning can support and build on their employability skills, knowledge and experience.

The workshop will provide young people with a 12-week course with a range of activities, so they can make informed decisions when using tools and technologies that will help them succeed in the modern digital world.

What we cover

The workshop will cover the following:

- Communication
- Teamwork
- Reliability
- Problem solving
- Self-awareness
- Critical thinking
- Creative thinking
- Decision making
- Effective communication
- Interpersonal relationships
- Empathy
- Coping with stress
- Coping with emotion
- Basic hairdressing

Who should attend

Our aim is to help support young people who have not yet attained their full potential within their chosen vocational path.

We do this by providing them with the skills and confidence to progress from basic level courses to higher level courses, apprenticeship opportunities and ultimately our aim is to help these young people into paid employment within the hair and beauty sector.

Our mission

To empower young people to be confident and skilled for joining the workforce and gaining employment.

Our workshops

The workshops will cover the following:

- They will consider key employability skills, knowledge and experience and how technology-enhanced learning can support and develop each of these
- From work readiness and lifelong learning, through to professional skills and knowledge, and authentic experience; we will explore how technology can enhance and improve the way that students learn, reflect and network
- We will share examples of practical activities that can be done in the classroom or at a distance that build up employability skills in all these areas
- They will reflect on current organisational practices and share and address challenges

Training outcomes

They will:

- Gain basic hairdressing skills to develop the knowledge and confidence they need
- Explore the Nurture Academy model of employability skills
- Identify and address barriers to employability
- Understand how technology-enhanced learning can support and develop their skills
- Share examples of technology-based activities that can be performed in the classroom or at a distance
- Reflect on current organisational practices
- Share and address challenges
